SUMMARY

Aspiring AI Product Manager and B.Tech CSE (AI/ML) student with hands-on experience across machine learning, full-stack development and business analytics. Seeking to bring a product x data x technology mindset to a high-impact PM role.

EDUCATION

B.Tech, Computer Science and Engineering (AI/ML) Ahmedabad, Gujarat
Adani University FEST Aug 2023 to June 2027

- Specialisation: Artificial Intelligence and Machine Learning

PROFESSIONAL EXPERIENCE

Machine Learning Intern Remote, India
Cognifyz Technologies Jan 2025 to Feb 2025

- Applied Python and AI/ML concepts to project-based machine learning tasks designed to strengthen practical technical knowledge.
- Built machine learning projects by translating concepts and algorithms into working implementations.

Student Intern Ahmedabad, Gujarat
Silver Touch Technologies Ltd Jul 2024 to Aug 2024

- Applied Python and Machine Learning concepts to practical technical tasks in a professional, on-site environment.
- Worked with data-driven approaches and ML techniques, strengthening analytical and problem-solving skills through practical implementation.

PRODUCT PORTFOLIO AND PROJECTS

Spotify Product Teardown: Smarter Music Discovery
Independent Project Nov 2026

- Analysed Spotify user reviews and app store feedback to identify pain points around repetitive recommendations and limited control over discovery.
- Proposed a "Discovery Dial" feature to let users tune familiar vs. new music in Daily Mixes; drafted PRD, user stories, success metrics (skip rate, new-artist saves, retention) and wireframe.

Business Intelligence Dashboard for Export Performance Analysis
Ananta Impex

- Built an interactive Microsoft Power BI dashboard for Ananta Impex to analyze export revenue, profit, customers, products, countries, logistics, and financial performance.
- Developed data transformations, a structured data model, and DAX-based KPIs to convert business data into actionable insights for management.

Employee Management System
Employee and Task Management Platform

- Built an employee and task management platform to streamline employee records, role assignment, task allocation, and progress tracking.
- Designed key workflow features including task assignment, status tracking, email notifications, and secure authentication.

SKILLS AND TOOLS

Product: Product Management, Product Development, Product Analytics, User Research, Agile/Scrum
Data & AI: Python, SQL, Data Analysis, Machine Learning, Artificial Intelligence, Power BI
Technical: React, Node.js, MongoDB, TypeScript, Git/GitHub
Leadership: Leadership, Problem Solving, Communication, Team Collaboration

LEADERSHIP AND INTERESTS

Adani Student Programming & Development Club (ASPDC) Ahmedabad, India
Web Development Lead Aug 2024 to Present

- Lead and coordinate a team of 4-5 web development members within the domain.
- Discuss plans and priorities with the Domain Head, then distribute tasks and responsibilities among team members.
